#### CHRISTMAS PLANS

We would like to wish you all a **wonderful Christmas**. Students and staff have had a wonderful time enjoying the Christmas activities.

Photos coming soon!

#### Passport to 18 and Springpod

Students are starting to build upon their personal development by completing elements of their Passport to 18. Here, they evidence various extra-curricular activities they participate in, as well as online work experience modules and virtual work experience placements. They also have an opportunity to showcase any volunteering they partake in, both in school and in their local community.

Students have the opportunity to record this during form time on a Friday. This evidence is gathered across Year 12 and is used when students begin to complete UCAS, employment and apprenticeship applications. If students require any support, such as completing an online work experience via Springpod for example, they must speak to their form tutors for guidance.
